

## FUEL SYSTEM CLEANING

### BENEFITS

- Increased system reliability
- Reduce emergency service calls & expense
- Extended life of your investment in generator engines, injectors, & fuel
- Lower fuel consumption
- Reduced excessive exhaust smoke
- Prevents clogged fuel lines, filters, & fuel injectors
- Prevents having to replace fuel

### Don't wait until it's too late!

Often, fuel sits in storage tanks for extended periods of time and absorbs moisture, oxidizes, or creates sludge. The result is clogged fuel filters and fuel injectors that can lead to reduced reliability and/or costly engine damage.

Fidelity Power Systems® offers a proactive way to clean and maintain the fuel systems to ensure the performance of your emergency stand-by generator. Ultimately, scheduled fuel cleaning lowers system repair costs and can be included as part of your planned maintenance agreements for diesel generators.

## **FIDELITY POWER SYSTEMS**

One of the nation's largest distributors and service providers of KOHLER® generators.

Over the past 40 years, Fidelity Power Systems® has become one of the nation's largest distributors of KOHLER® Generators and Power Systems in the mid-Atlantic region. We offer a full line of commercial, industrial and residential emergency power systems including stand-by generators, automatic transfer switches, paralleling switchgear and replacement parts.

Fidelity Power Systems award-winning service teams include factory-trained and authorized service technicians who specialize in emergency power systems, supporting commercial, industrial, health care, critical facilities, and more.
